

Magento Fargo Shipping Installation

NB: Please execute the steps in the listed order:

STEP 1. Create your Fargo Courier Shipping Account

Go to: <http://api.bookacourier.co.ke/>

Register and login to your account.

To get your **Website Token** click on the **Websites** menu tab and click on the **Add Domain** button. A token is generated after you save.

Save the **Website Token** as this is what you will use on your website.

	http://testing.com	ryG5EXSdLKF9BL2IOIFGW7njCMPVjkHI	Published
--	---	----------------------------------	-----------

STEP 2. Plug-in Installation

- Extract the Fargo Courier folder
- Copy the contents in the Step1 folder to yourbasedirectory/app/code/local folder. If the local folder does not exist you will have to create it.
- Copy the file in the Step2 folder to the yourbasedirectory/app/etc/modules folder

STEP 3. Fargo Extension Setup and Configuration

a. Setting up Wells Fargo delivery towns

!Important Run this URL on your browser:

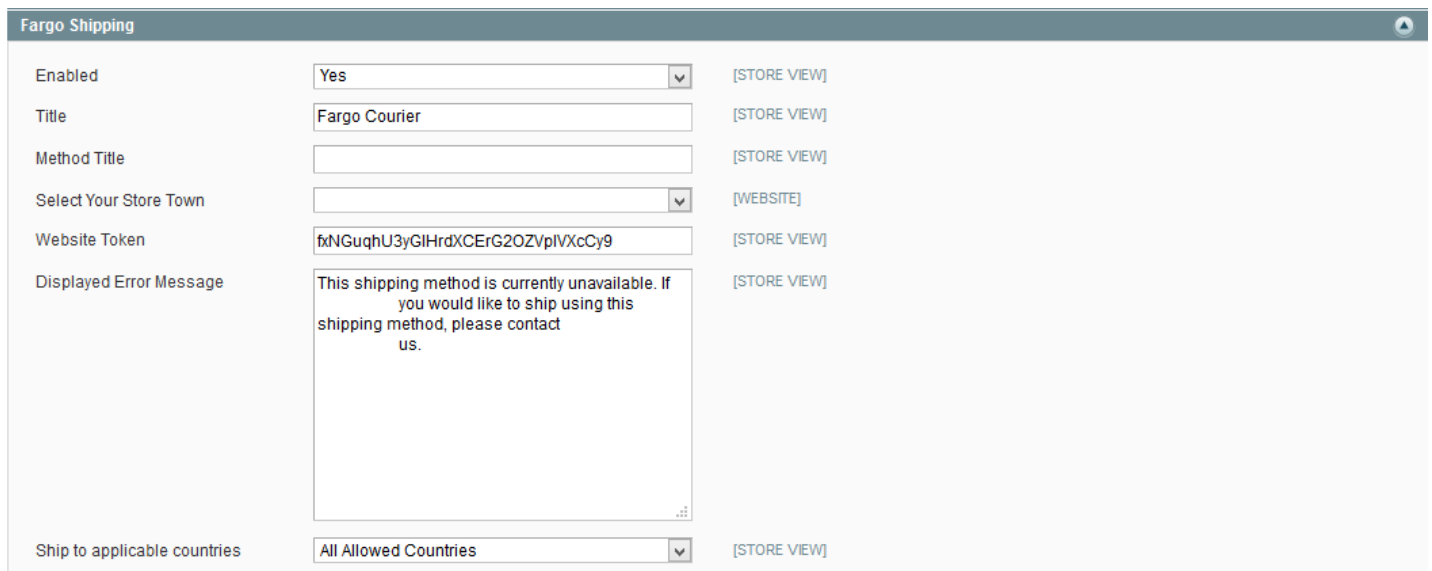

<http://www.mywebsitename.com/fargoshipping/shipping/createTownsTable>

We need to create a new fargo towns table to your database to store the fargo towns. Run this URL on your browser

b. Saving your Website Token in your Magento Config

On your Magento admin navigate to the Fargo shipping Plugin : Go to **System-> Configuration-> Shipping Methods**.

Click on the **Fargo Shipping** Tab: Enter the Token on the **Website Token** field and save.

The screenshot shows the 'Fargo Shipping' configuration page in the Magento Admin interface. The page has a title bar 'Fargo Shipping' with a refresh icon. Below the title bar, there are several configuration fields:

- Enabled:** A dropdown menu set to 'Yes'. To its right is a '[STORE VIEW]' link.
- Title:** A text input field containing 'Fargo Courier'. To its right is a '[STORE VIEW]' link.
- Method Title:** An empty text input field. To its right is a '[STORE VIEW]' link.
- Select Your Store Town:** A dropdown menu. To its right is a '[WEBSITE]' link.
- Website Token:** A text input field containing 'fxNGuqhU3yGIHrdXCErG2OZVpIVXcCy9'. To its right is a '[STORE VIEW]' link.
- Displayed Error Message:** A large text area containing the message: 'This shipping method is currently unavailable. If you would like to ship using this shipping method, please contact us.' To its right is a '[STORE VIEW]' link.
- Ship to applicable countries:** A dropdown menu set to 'All Allowed Countries'. To its right is a '[STORE VIEW]' link.

c. Saving Well Fargo towns to your Website: You have to save the Website Token so as to go through this next step.

!Important Run this URL on your browser:

<http://www.mywebsitename.com/fargoshipping/shipping/saveTowns>

to save the fargo towns to the towns table you had just created

Clear the Magento Cache/Cache Storage .

Go to the Fargo Shipping Method and your **Store Town** as displayed below, as this is crucial in calculation of the shipping cost.

STEP 4. Set up Product Dimensions

The Fargo Courier Plugin is a dimension and weight based shipping plugin. Dimensions and weight of a product must be set for a price to be returned. For each product you need to set the weight, width, length, height where applicable. To do this you will add custom attributes to all your magento products that are to be shipped.

For products 0.5 kg and below just set the length.

The custom attributes are **itemheight**, **itemwidth** and **itemlength**. Weight is already there by default.

a. Setting product attributes

On the magento admin go to **Catalog -> Attributes->Manage Attributes** on the Menu.
